

I am writing on behalf of my local radio station WJKL 94.3 Elgin/Chicago K-Love Radio Rocklin, CA 95765. This national broadcaster supports my values and beliefs through encouraging songs, messages and local venue events. I support this station thru monthly financial contributions. I believe their broadcast content and range is important and should not be hindered by future enhancements or permits to low power localized area transmitters. May you thoughtfully this and other supporting comments of this important station. Without my KLOVE station signal, I would be forced to find another station to listen to and No other stations in my home (Bolingbrook IL) and daily commuting area (Batavia IL) share K-LOVE's focus and content.
